Anti Counterfeit Solution

Main benefits

for consumers and producers

Brand integrity

A **security taggant** is incorporated in the packaging, without any visible marks on the appearance, ensuring **full control** of the drugs along the whole **supply chain**, **customer's safety** and **brand integrity**.

Versatility

The security taggant can be incorporated into **different types of packaging** (closures, plastic bottles, dosing accessories), and it offers **different level of protection** thanks to **taggant customization**.

Cost-competitiveness

The solution ensures **competitive costs** in comparison to existing technologies and allows an **efficient and effective tracking** of drugs along the whole supply chain.

Applications

- Oral
- Ophthalmic
- Parenteral
